Monk .

5555555555 | contact@heymonk.app | Fremont, CA

Summary

Experienced product leader specializing in B2B/SaaS, with a proven track record of driving significant revenue growth and leading ini- tiatives for large-scale user bases. Currently a Principal Product Manager, successfully expanding AI product strategies and marketplace ecosystems, resulting in increased enterprise customer acquisition and revenue growth. Aims to leverage expertise in AI/ML and SaaS platforms to enhance product management strategies and drive business success.

Experience

ZEDEDA | San Jose, CA
Principal Product Manager | 06/2024 - Present

• Defined AI product strategy and built AI serving and model distribution platform, resulting in 30% increase in net new enterprise customers, and expansion into 3 new vertical markets within 12 months. • Defined Marketplace strategy, onboarding solution partners for use cases like industrial safety, manufacturing defect detection, and license plate recognition, growing the ecosystem by 20 % within the first year. • Expanded Pricing & GTM strategy, transitioning from direct sales to indirect channels (OEMs and SI/MSP Resellers), increasing revenue and scalability through diversified distribution, reflected in a 15% increase in channel sales and 30% overall revenue growth.

Transcend Tech Inc. | Newark, CA
CEO | 10/2022 - 08/2025

• Built a B2B AI-native macOS messaging app, acquiring 20 pilot customers within the first year. • Developed the first product version using LLM RAG and vector embeddings, enabling semantic search and personalized recommen- dations, resulting in 1000 DAU using the product 10+ times a day. • Raised a small funding round and bootstrapped growth, scaling the team to 5 engineers and data scientists. • Shut down the company, as Generative-AI fundamentally changed the software consumption model. The business was no longer viable.

eBay | San Jose, CA
Group Product Manager - Core AI & ML Group (B2C) | 08/2020 - 08/2025

• Developed large-scale AI applications, with billions of inferences, for use cases like counterfeit & hate speech detection. Increased fraudulent listings detection by 500% and hate speech detection by 200%, mitigating lawsuit threats and improving user experience. • Enhanced buyer and seller experience on the marketplace using AI models for image background removal, semantic search, ranking, and recommendations, which increased GMV by 8% • Built MLOps platform for model training, serving, and monitoring, enabling 500 data scientists and ML engineers to improve model productionization speed by 200%. Enabled faster time to market and iteration of AI models across various eBay products. • Launched eBay Live Commerce experience, aiming to capture the multi-billion market. Onboarded top 200 sellers in the collectibles business within the first 6 months.

Cisco | San Jose, CA
Lead Product Manager (B2B) | 09/2016 - 08/2025

• Developed Cisco's Industrial IoT Edge SaaS portfolio, launched 3 products, expanded to 100 enterprise clients, and generated $50M in revenue over 4 years. • Launched a partner program for the Industrial IoT portfolio, resulting in a robust ecosystem of 20+ Independent Software Vendors (ISVs), System Integrators (SIs), and Reseller partners, expanding market reach into 5 industrial verticals like roadways, oil & gas, discrete and process manufacturing. • Expanded Cisco's intellectual property portfolio by filing 4 patents, 2 of which were granted, significantly bolstering the company's industry positioning and competitive advantage.

Marvell | Santa Clara, CA
Product Manager (B2B2C) | 10/2013 - 08/2025

• Developed software for Marvell's custom-made multimedia chipsets for Google Chromecast products, acquiring 100 million users and contributing $80M to Marvell's smart home business. • Built an ecosystem of 3rd party partners in the home IoT and audio space, generating $50M in net new revenue and diversifying the business
